NETWORK AND SALES REPRESENTATION UPDATES

All participating Networks have the option to report their data under their individual Network name, in addition to under their Sales Representation (where applicable)

POWERED BY PODCAST METRICS

Triton Digital's Podcast Metrics measurement service is certified by the IAB Tech Lab as complying with Version 2.0 of the IAB Podcast Measurement Technical Guidelines and currently under audit to complete certification for version 2.1.

ABOUT THE U.S. NETWORK REPORT

The U.S. Network Report lists the Top 20 Podcast Networks in the U.S., as measured by Podcast Metrics. The entities listed are ranked by Average Weekly Downloads and Average Weekly Users in the reporting period who are located in the United States.

ABOUT THE U.S. PODCAST REPORT

The U.S. Podcast Report lists the Top 100 Podcasts consumed by users who are located in the United States. The entities listed are ranked by Average Weekly Downloads and Average Weekly Users.

ABOUT THE METHODOLOGY

The U.S. Podcast Report is based on 4 or 5 week reporting periods (Monday to Sunday) that align closely with a calendar month. The reporting calendar, using Average Weekly Download and User metrics, improves trendability by minimizing the impact of the varying length of calendar months and other factors that can impact media consumption. Participating entities that opt-in for measurement are included. Downloads and Users are measured in accordance with the latest IAB Podcast Technical Measurement Guidelines.

METRIC AND RANK CHANGE DEFINITIONS

Downloads - Unique file requests that were downloaded. This includes complete file downloads, progressive downloads, as well as partial downloads in accordance with the IAB Podcast Measurement Technical Guidelines v2.1 filtering rules (e.g., spiders and bots, data centers, one-minute of content minimum download, etc.). "Unique" file requests filters multiple requests from the same IP address, user agent, episode, and date.

Users - A user is an individual who downloads content for either immediate or delayed consumption. Users are identified by a combination of IP address and user agent in accordance with the IAB filtering rules described in the IAB Podcast Measurement Technical Guidelines v2.1. Note that Users do not necessarily listen to all downloaded content. For this reason, we have chosen to use the term "User" instead of "Listener" in this context to avoid confusion.

Number of Active Podcasts - A count of all podcast titles which had at least one qualified download during the reporting period

Number of New Episodes - The number of new episodes released during the reporting period

Rank Change - "Debut" in the Rank Change column indicates that the show is new to the report, making its debut for the first time in the last 13 months. "Return" indicates that the show has returned to the Top 100 after having not appeared in the previous reporting period(s).

CONTACT US

Any podcast network with an audience in the United States is eligible to participate in both the Top Network and Top Podcast Reports.
